

GREEN-EX Concentrate

**REMOVES GREEN-GROWTH FROM ALL EXTERIOR WOOD,
 PAINTED OR UNPAINTED
 ALSO FROM NATURAL STONE, BRICKS, TILES, CONCRETE ETC.
 HIGHLY EFFECTIVE - SELF ACTING - CHECKS NEW GROWTH
 WATER DILUTABLE**

PRODUCT CHARACTERISTICS:

SAICOS GREEN-EX is an effective, biological concentrate for the easy removal of green growth and similar defects caused by natural pollution.

It is self-acting, gentle but thorough, and checks new growth. **It is gentle to the skin and environmentally friendly, biologically decomposable and therefore easy to dispose.**

COLOUR:

8120 colourless.

FIELDS OF APPLICATION:

Removal of green growth from all outdoor materials like wood, stone, concrete, cement, brick, tiles, ceramic etc. Also metal, glass, paints and varnishes.

Ideal for all outdoor wood like wooden decks and garden furniture, painted or unpainted, without impairing the finish (plastic: check colour stability of surface before application).

APPLICATION PROCEDURE:

Preparation:

Remove coarse dirt.

Surface should not be wet.

Dilute with water up to 10 parts, depending on degree of green growth infestation (can also be used undiluted if heavily infested).

Application:

Simply pour on with watering can, garden sprayer or brush.

Self-acting - green growth will disappear within approx. 24 hrs.

In case of remaining spots procedure can be repeated.

Note: Avoid direct plant contact as this might cause discoloration (f. i. of lawn).

BEST TEMPERATURE FOR APPLICATION:

between 8° C und 35° C.

Surfaces must be frostfree.

NUMBER OF APPLICATIONS:

1

(can be repeated in case of heavy infestation).

CLEANING OF WORKING UTENSILS:

Just wash out with water.

DRYING TIME:

Dries like any wet outdoor surface (depending on weather conditions). If subsequent painting is desired, surface must be completely dry.

MAINTENANCE:

Procedure can be repeated any time in case of new infestation.

INGREDIENTS:

Biologically decomposable cationic and non-ionic cleaning ten-sides (Dodecyl-Dimethyl-Ammoniumchlorides 0,6 g/100 g).

Solvent: Water.

PHYSICAL PROPERTIES:

Specific gravity: 1,0 g/cm³.

Viscosity: liquid.

Odour: mild/weak, odourless when dry.

Flashpoint: not inflammable (EURO-Norm identification not required).

SAFETY ADVICE:

Keep out of the reach of children. Do not bring in contact with acids. Do not inhale spray mist. Do not fill into containers normally used for food and drink. Do not bring into contact with victuals and animal food. In case of eye or skin contact rinse with clear water immediately. In case of contact with garments wash out with water immediately. Do not bring into direct contact with plants (bleaching).

STORAGE PROPERTIES:

2 years or more if tightly closed and stored frostfree.

COVERAGE CAPACITY PER LITRE:

1 L will be sufficient for 50 - 100 m², depending on degree of infestation.

CAN SIZES AND COVERAGE:

1,0 L = approx. 50 - 100 m²,

10,0 L = approx. 500 - 1000 m², depending on degree of infestation.

HEALTH AND ENVIRONMENT:

SAICOS GREEN-EX does not contain organic biocides, no solvents and no formaldehyde.

The environmental friendly product is biologically decomposable according to OECD Norm, therefore unproblematic disposal.

SAICOS GREEN-EX is physiologically harmless, not dangerous to health and does not require identification after the ordinance of dangerous materials.

It is low in odour and odourless when dry.

UBA-Reg.-No. 5858 00 03.

The above information is given to the best of our knowledge but without liability.

All SAICOS products are made in Germany.
